Connection size for Vaporo Valves: ½" BSP

All Alta Heated Towel Rails:

Test Pressure: 6 bar

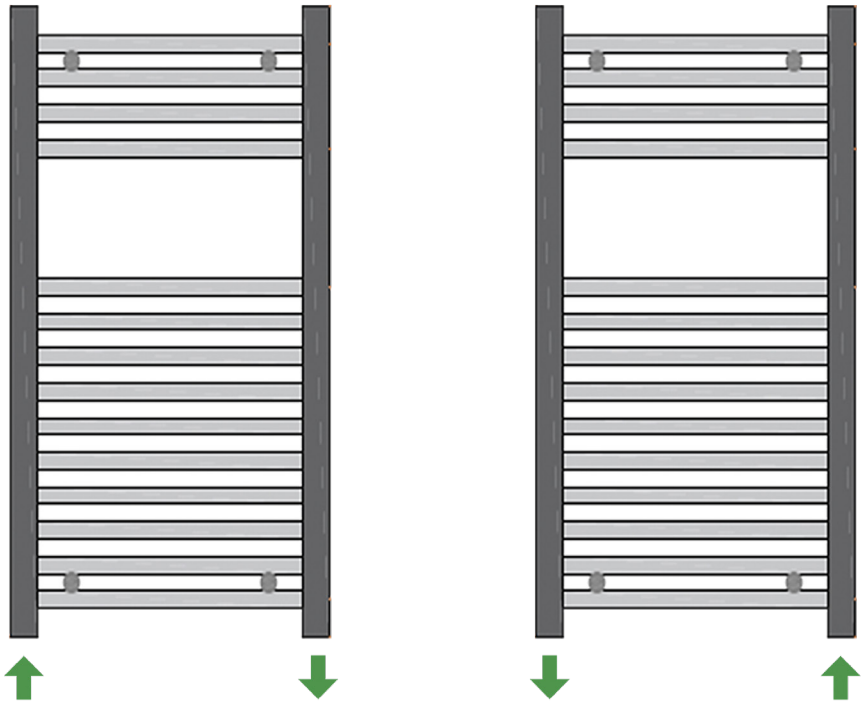

Max Operating Pressure: 4 Bar

Alta heated towel rails are BOE and pipe centres are the radiator width **minus** 45mm

Please note due to manufacturing tolerances,
pipe centres may vary by +/- 10mm

We recommend that pipe work is not altered until your radiator is on site

Valve Installation Advice for Alta:

Please ensure your radiator valves are fitted as per the diagrams here.

Our Alta heated towel rails can be mounted upside down, allowing the flow and diverter positions to be configured to suit the property's existing pipework and plumbing layout.

Please contact a specialist or get in touch for more information before doing this.

IMPORTANT: We recommend all Vaporo radiators are fitted using V43 Seal. Overuse of PTFE tape may cause damage.
