Water Content Per Column (L)	2.100 **| 2.950**

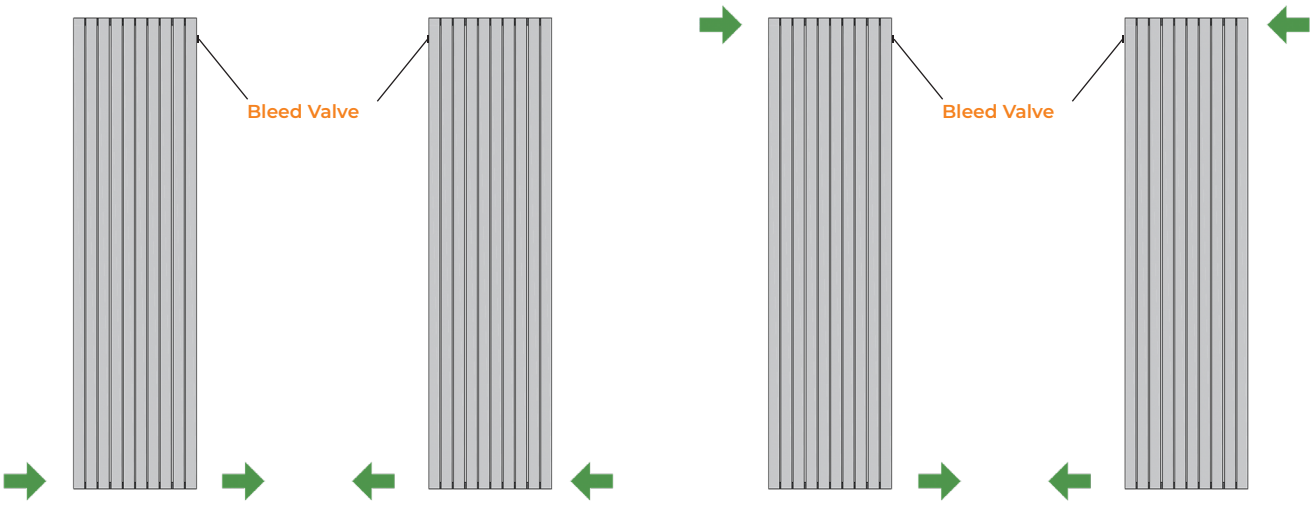

Connection size for valves: ½" BSP

All Vito Radiators:

Test Pressure: 13 bar

Max Operating Pressure: 10 Bar

Valve Installation Advice for Vito:

Please ensure your radiator valves are fitted as per the diagrams here.

Our Vito radiators can be mounted upside down, allowing the flow and diverter positions to be configured to suit the property's existing pipework and plumbing layout.

IMPORTANT: We recommend all Vaporo radiators are fitted using V43 Seal. Overuse of PTFE tape may cause damage.
